APPROX 2013 GROWTH

Large Civil Engines

Trent XWB - Airbus A350
Trent 1000 - Boeing 757
GP7200 - Airbus A380
Trent 900 - Airbus A380
Trent 800 - Boeing 777
Trent 700 - Airbus A330

Small Civil Engines

V2500 - Airbus A320
CFM56 - Boeing 737
BR725 - Gulfstream G650
BR710 - Bombardier

Defence Engines

TP400 - Airbus A400M
EJ200 - Eurofighter Typhoon
RB199 - Tornado

Thermal Engineering is a leading aerospace components manufacturer, supplying aero engine and airframe OEMs and their Tier 1 suppliers globally

The business specialises in components for aero engines, nacelles and airframes for leading aerospace manufacturers around the world.

Key high technology processes include:

- Hot and cold forming of hard, high temperature aerospace alloys
- Laser machining
- Complex assembly
- Encapsulated insulation systems

A GLOBAL CUSTOMER BASE

Solid Foundations for Growth

FACT SHEET

Experienced Management Team

Vardhan Rajkumar, CHAIRMAN

Extensive experience in global manufacturing in the aluminium, aviation and telecom sectors

Max Humber, MANAGING DIRECTOR

Over 20 years' experience in the aerospace, automotive and metal processing industries. Senior positions held at Timet, Doncasters, Senior and Tata Steel

Paul White CGMA, FINANCE DIRECTOR

Over 20 years' finance experience in aerospace and automotive manufacturing

Avais Chaudhri, OPERATIONS DIRECTOR

Lean operations expert with over 25 years experience in the aerospace and automotive sectors

20 years of aerospace experience

Working to the highest quality standards with certification to AS9100 rev C and accredited by NADCAP for its special processes

Strategy

- Maintaining leadership position in forming of high temperature aerospace alloys
- In excess of 10% revenue growth targeted for 2013
- Continuing to develop customer relationships with OEMs and their Tier 1 partners
- Targeting future aircraft and engine programs (eg. A320 Neo)
- Investing in additional hot forming capacity
- Substantial recruitment and training programme

Growing global order book

- Supplying growth programmes including Trent XWB and TP400
- 20% exports worldwide

Strong financial position

- Profitable business with strong balance sheet
- Private equity backed by Privet Capital
- Strong financing relationship with Lloyds TSB Commercial Finance
